TELEPHONES:
Off. 255-3503
Res. 255-1915

Utah State Division of Water Rights
State Capitol Building
Salt Lake City, Utah 84114

Att: Mr. Don Norseth

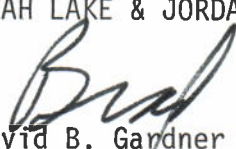

Dear Don:

Enclosed is a copy of the lake elevation and its capacity for the month of October. You will note that the lake is beginning to rise from its low point of -0.87 to an elevation of -0.77 on October 1.

All dam and gate facilities are open and the river is in a free flow state with a daily discharge of approximately 450 second feet through the Jordan Narrows. I will keep you informed as to its status on a monthly basis unless you wish additional data in the interim.

Yours very truly,

UTAH LAKE & JORDAN RIVER

David B. Gardner
Commissioner
